

## ✓VPN Task Summary (Short & Clear):

### □ VPN ke Fayde (Benefits):

1. **IP address chhupa deta hai** – location private rehti hai.
2. **Internet traffic encrypt karta hai** – hackers data chura nahi sakte.
3. **Public Wi-Fi pe safe browsing** possible ho jata hai.
4. **Geo-blocked content** (Netflix US, websites) access kiya ja sakta hai.

—

### □ VPN ke Nuksan (Limitations):

1. **Internet speed slow ho sakti hai** – kyunki data encrypted tunnel se jaata hai.
2. **Free VPNs limited servers & bandwidth dete hain.**
3. **100% anonymity nahi deta** – VPN provider ko pata rehta hai tum kya kar rahe ho.
4. **Kuch websites VPN detect karke block kar deti hain.**

### □ Final Summary (1 Line):

VPN aur browser extension cleanup se maine seekha ki online privacy aur data security kaise maintain karte hain.
